

Presentation Assessment (CDR / FDR)

Group Name/Number: _____

		0		20		40		50		60		70		80		90		100												
Weight	Grade	F				E				D				C				B				A								
15	Problem Definition, Mission, and Design Drivers (clarity of the design task, mission definition, and identification of dominant system-level drivers)																													
10	Final Concept and Design Rationale (customer- and mission-driven suitability of the final aircraft configuration)																													
20	Development of a suitable multi-disciplinary sizing tool (disciple development and integration, with the use of appropriate fidelity methods)																													
15	System-Level Optimisation & Design Space Exploration (performance, trade-studies, sensitivities, and robustness of the final design)																													
10	Project Management & Team Coordination (PM methodology, adaptation across sprints, and identification of project risks)																													
15	Quality & Clarity of Communication (structure, clarity of slides, and effectiveness of delivery)																													
15	Technical defense, incl. Q&A (critical defence of design features, assumptions and sensitivities)																													
0	Overall Academic Judgement (moderation only)																													

Please provide your written comments below. These will be collated and shared with students digitally:

The CDR/PDR marking criteria are aligned with the University's marking criteria. While the marking scheme used with the criteria outlined here is customised and more relevant to CADEM0016 presentations, the generic descriptors provide broad comparability of standards by level of study across all programmes and by level of performance across the University. They reflect HEQF Level 7.

Criteria	E	D	C	B	A	
100 point scale	20-40	40-50	50-60	60-70	70-80	80-100
Quality & clarity of presentation	Shows very limited awareness of the ways communication needs to be adapted for different audiences.	Shows limited awareness of the ways communication needs to be adapted for different audiences.	Shows some awareness of ways that communication needs to be adapted for different audiences.	Can communicate effectively to a range of audiences, using a wide range of media as appropriate.	Can communicate effectively to a range of audiences, using a wide range of media as appropriate.	Can communicate effectively to a range of audiences in an engaging and professional manner, using a wide range of media as appropriate.
Adequacy of coverage	No evidence of a critical approach to the knowledge base.	Little evidence of a critical approach to the knowledge base.	Demonstrates sufficient understanding of current theoretical and methodological approaches and how these affect the way the knowledge base is interpreted.	Demonstrates a systematic knowledge, understanding and critical awareness of current problems	Demonstrates critical awareness of the complexity of contemporary issues in the field, with an original perspective.	Displays mastery of a complex and specialised area of knowledge and skills, with notable critical awareness of current problems and/or new insights at forefront of field.
Technical insight (depth + correctness)	Demonstrates significant weaknesses in knowledge base, and/or simply reproduces knowledge without any evidence of understanding.	Demonstrates superficial knowledge of the field and awareness of current evidence and issues, but with notable weaknesses. Lacks knowledge and understanding of some key areas.	Demonstrates systematic knowledge and understanding of a specialised field, much of which is at or informed by the forefront of the field of study.	Work with a well defined focus. The work may include evidence of originality, much of which is at or informed by the forefront of the academic discipline, field of study or area of professional practice.	Authoritative and tightly-focused work, which demonstrates systematic, in-depth, and specialised knowledge and sophisticated conceptual understanding of the subject, at the forefront of the field of study.	Produces work of exceptional standard, reflecting excellent understanding.
Technical defense, incl. Q&A	No evidence shown of ability to make decisions in complex and unpredictable circumstances.	Little evidence shown of ability to make decisions in complex and unpredictable circumstances.	Shows limited ability to make decisions in complex and unpredictable circumstances.	Confident in adapting to changing and unfamiliar or challenging circumstances and making evidence-based decisions.	Confident in adapting to changing and unfamiliar/challenging circumstances and making effective, evidence-based decisions	Shows confidence and creativity in adapting to changing and unfamiliar/challenging circumstances.
